The ePortfolio tool allows you to create various types of items just within ePortfolio; not directly linked to your course.

Some examples of these items include:

- HTML files (blank webpages)
- Audio Recordings
- Fill Out a Departmental or Institutional Form
- Write a Reflection
- Form a Collection
- Create a Presentation

The ePortfolio tool also allows you to upload items from

- Files from Computer
- Files from Locker

The ePortfolio tool allows you to import course results so you could use course related items such as:

- Drop Box submission such as a final project with instructor remarks and project grade.
- Specific Exam results
- Successfully completed Learning Objectives
